The decision of the Board of Education in regards to granting a request for use of facilities will be based upon a consideration of the following conditions, listed in order of importance:

3. Requests for use of Smyrna School District Facilities

All requests for the use of any Smyrna School District facility or equipment within the policies established by the Board of Education must be made at least fourteen (14) days in advance at the facility that is being requested for use on the district facility request form. Exceptions to this policy may be made only by action of the Superintendent or his/her designee or if an emergency situation warrants such exception.
At first contact with the school district, tentative agreement may be reached on providing facilities or equipment; but the agreement is subject to approval by the building administrator and the Superintendent or his/her designee. If approved, a signed contract will be sent to the person assuming responsibility for use of the facility or equipment. Reservations will not be accepted more than ninety (90) days in advance.
