Title: Extra-Curricular Course Determination

Policy #: 5134

Program Evaluation

The goals and objectives of the before and after school activities which are an extension of the regular course of study were carefully examined at both the High School and Middle School so that a determination of those courses that must meet the increased standards for participation could be identified. The group decided that at the Middle School all courses are an extension of the regular school day with the following exceptions:

1. All Athletics
2. Cheerleading
3. Band Front
4. Student Council

The High School courses that meet the criteria for exemption from the extracurricular requirements are:

1. Band
2. Chorus
3. Newspaper
4. Yearbook

These four courses are placed in the master schedule while all other activities are considered extracurricular and must meet the new requirements.
